ENGINEERS REQUIRED!

VACANCIES FOR SERVICE AND APPLICATIONS ENGINEERS

• CO-ORDINATE MEASURING MACHINES
• HEIGHT GAUGES
• NON-CONTACT OPTICAL MEASURING MACHINES
• METROLOGY SOFTWARE
• GRANITE SURFACE TABLES

Service and applications engineers are required to work for Eley Metrology in the UK.

Based out of Derby, England, you will be working for one of the premier metrology companies in the UK.

We require Service Engineers for the assembly, installation and on-site maintenance of the company’s products, primarily co-ordinate measuring machines.

Applicants should have a proven track record in electro-mechanical engineering.

We also require Applications Engineers to demonstrate and provide training for the company’s products.

Applicants should have a background in precision mechanical engineering & be conversant with the latest software. CNC programming would be an advantage, as would metrology and inspection experience.

Substantial training will be provided, as will excellent remuneration, and the usual company benefits.

Apply on the stand, or in writing to jeff.eley@eleymet.com, or call 00 44 1332 367475
